**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. We need to have competition to help our economy thrive. The internet is crucial for so many people these days and especially small business, that the widest range of options for features and price points is paramount.

For those of us who are not the 1%, price hikes can be really damaging.

I don't have fiber yet but plan to in the next few months since it has finally become available in my neighborhood. I appreciate having an option of companies.
